<i>Residential self-hauled</i>	3.3%	1,302,634
Totals	100%	39,722,818

Numbers may not total exactly due to rounding.

Overview of Commercial Disposed Waste

State Legislation

-  **AB 939** – mandates local jurisdictions to divert 50% of solid waste through source reduction, recycling and composting
-  **AB 32** – mandatory commercial recycling beginning July 1, 2012

Start a Business Recycling Program

- ♻️ Recycling shows commitment to the community and the environment
- ♻️ Recycling information is great for press releases and other marketing materials
- ♻️ Can potentially be cost-effective part of overall waste reduction program, by saving your company money on trash removal.

No-Cost Steps to Recycle & Reduce Waste

Reduce Office Waste

- ♻️ Develop a company-wide policy of photocopying on both sides of the paper.
- ♻️ Use the blank side of printed material for creating draft documents and notepads.
- ♻️ Email reports instead of making printed copies.
- ♻️ Post general memos in central locations or on electronic bulletin pages.

Create a Reuse and Recycling Culture

- ♻️ Establish a workplace recycling system for paper, plastics, metals, and glass.
- ♻️ Examine the manufacturing processes for opportunities to use materials more efficiently.
- ♻️ Rethink product packaging.
- ♻️ Consider composting food waste.
- ♻️ Participate in recycling programs for unwanted electronic equipment.
- ♻️ Rent or lease equipment, particularly from manufacturers that will take back and recycle their goods at their “end of life.”

CR&R Waste Assessments

- ♻️ Consists of an overall facility walk-thru.
- ♻️ Shows how and where waste is generated.
- ♻️ Analyzes composition of waste.
- ♻️ Looks at where and how waste is being disposed.
- ♻️ Waste Assessment Report prepared by CR&R.

Recycling Facts

- ♻️ According to the EPA, recycling cuts global warming pollution by the equivalent of removing 39.6 million cars from the road.
- ♻️ U.S. paper producers alone consume one billion trees – or 12,430 square miles of forests – every year, while producing 735 pounds of paper for every American.
- ♻️ Every year, Americans make enough plastic film to shrink-wrap the state of Texas.
- ♻️ Nearly 120,000 cans are recycled every minute in the US.
