**REVIEW PROCESS**

**PRE-APPLICATION:** The applicant meets with staff to become familiar with zoning requirements applicable to the project.

**APPLICATION SUBMITTAL:** City staff reviews application for completeness. If complete, staff reviews the project for determination of compliance with the California Environmental Quality Act. The project is reviewed by the Zoning Administrator, Planning Commission, and/or other boards and commissions, as deemed necessary.

**ZONING ADMINISTRATOR:** The Zoning Administrator conducts public hearings for zone variances and some conditional use permits. The application may be approved, conditionally approved, or denied based upon staff's analysis and recommendation and public testimony received on the project.

**PLANNING COMMISSION:** The Planning Commission conducts public hearings for the majority of the land use applications and makes the final decision based upon staff’s recommendation and public testimony received on the project.

**CITY COUNCIL:** Decisions on all tentative subdivision maps, rezones, General Plan amendments, and agreements are made by the City Council after a public hearing.

**ANY QUESTIONS?** Please call the Planning Division at (949) 443-6331.

---

**WATER SUPPLY ALERT**

Much of southern California, including the City of San Juan Capistrano, is experiencing decreasing levels of potable (drinkable) water supply. Project and permit applicants and property owners are encouraged to conserve water and to monitor the water purveyor’s ability to supply water. The City is currently under mandatory water use restrictions from its water wholesaler, Metropolitan Water District of Southern California. New development applications, and subsequent permitting, may have land use entitlements and/or conditions of approval restrictions based on water supply conditions. These conditions are subject to change if water supply availability worsens. Please be sure to check with the Utilities Department to receive information on the current situation at each phase of your project.
