CITY OF SAN JUAN CAPISTRANO

ASSOCIATE PLANNER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform a variety of general professional planning functions including conducting studies, analyzing data and preparing content for reports to be used on current and long-range projects; to provide customer service to the public; to coordinate all activities related to assigned projects; and to provide information and assistance to developers, the business community and general public regarding planning and development related matters.

DISTINGUISHING CHARACTERISTICS

This is the journey level class within the Planner series. Employees within this class are distinguished from other Planner level(s) by the performance of the full range of general or journey-level duties as assigned including assuming responsibility for portions of advanced planning projects, participation and support of planning projects and preparation of significant sections of planning reports. Employees at this level receive instruction or assistance as new or unusual situations arise, and are fully aware of most operating procedures and policies of the work unit.

SUPERVISION RECEIVED AND EXERCISED

receives direction from the Planning Director or senior Planning staff.

ESSENTIAL FUNCTION STATEMENTS. Essential responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

1. Performs professional level planning functions including conducting portions of planning studies, analyzing data and preparing sections of reports on assigned current and occasionally long range planning projects.

2. Coordinates planning activities with other departments, divisions and outside agencies and organizations and provides related assistance as required.

3. Provides customer service at the Planning Department’s public counter; receives and reviews development proposals and applications and zoning and variance requests; reviews proposals and applications for compliance with appropriate regulations and policies; recommends modifications for review and final approval by senior staff as appropriate.

4. Conducts a variety of current planning studies; researches, analyzes and interprets social, economic, land use and population data; identifies trends; prepares major sections of written reports and provides recommendations on planning activities; may participate in or support the delivery of presentations to the Planning Commission and City Council.

5. Assists in preparing agendas and reports on development applications for presentation to various commissions and committees; researches and analyzes portions of development proposals.
