

START A RECYCLING PROGRAM

SAVINGS

Recycling is not only good for the environment, it can be great for your bottom line too! By exchanging a trash container with a recycle container, your monthly bill may be significantly reduced. Let us show you how to manage your waste stream and put money back in your business and not your trash container.

GETTING STARTED

CR&R will work with your business to determine the types of materials you generate and structure a program using the space you have available in and around your office for collection.

TRAINING/ASSISTANCE

Once your business decides to implement a program, CR&R's Sustainability Specialist will assist in the training of your employees. We'll provide educational materials explaining the program in depth. One of the keys to a successful program is education from the executive management to the janitorial staff.

CUSTOMIZED PROGRAM

CR&R offers waste audits for businesses seeking to improve their current recycling and waste programs. A CR&R Sustainability Specialist will evaluate from the inside out to achieve the most successful recycling program possible. For additional information, please call customer service.

RECYCLING LEGISLATION

IT'S THE LAW! BUSINESS RECYCLING

Information about California's business recycling requirements is available from the California Department of Resources Recycling and Recovery (CalRecycle) at <http://www.calrecycle.gov/recycle/commercial>

Assembly Bill 341 (AB341) requires all jurisdiction to meet the diversion goal of 75% by 2020 resulting in businesses who generate 4 or more cubic yards of solid waste to either:

- Participate in a recycling program with their local waste hauler
- Donate, sell and/or sell self-haul materials to a recycling facility

Assembly Bill 1826 (AB1826) requires businesses to separate their food scraps and green waste for recycling. AB 1826 builds on the success of the mandatory commercial recycling program established by AB 341. All businesses with 4 or more yards of solid waste per week must either:

- Participate in a recycling program with their local waste hauler
- Donate, sell and/or self-haul materials to an organic recycling facility
- Compost organic materials

Senate Bill 1383 [SB 1383] In September 2016, Governor Brown signed SB 1383 establishing methane emissions reduction targets in a statewide effort to reduce emissions. In accordance to this law, all local jurisdictions must provide organic waste collection service to all residential and commercial generators by January 1, 2022, to divert this material from landfills. Organic waste includes food scraps and green waste such as landscape and pruning waste.

FOOD SCRAP RECYCLING

Returning organic materials to the soil drastically reduces the environmental impacts of landfills, reduces greenhouse gases, creates jobs, and helps sustain California's agricultural industry.

CR&R has developed a Food Scrap Recycling collection program to service businesses and gives you the opportunity to comply with State law. Items that will be acceptable in the program include food preparation scraps and table scraps, food soiled paper, plants, flowers, coffee grounds and much more. To obtain additional information, call CR&R Environmental Services and ask to speak with a Sustainability Specialist for your area.

HAVE EXCESS FOOD TO DONATE?

If you are interested in donating prepared or nonperishable food, contact one of CR&R's Food Rescue Partners: Waste Not OC Coalition at www.wastenotoc.org

IT'S THE LAW! BUSINESS RECYCLING

These items are recyclable and should be placed in your white recycling bin or recycle cart:

- Metal
- Paper
- Glass
- Plastic

CONTAINER SIZES

CART SIZES

LANDFILL CART

- 35 GAL
- 65 GAL
- 96 GAL

RECYCLE CART

- 35 GAL
- 65 GAL

BIN SIZES

TRASH BIN

- 2-YARD
- 3-YARD
- 4-YARD

RECYCLE BIN

SPLIT BIN

- 3-YARD
- 4-YARD

FOOD SCRAP BIN

2-YARD

BULKY ITEM COLLECTION

Items that cannot properly fit in your container, such as a chair or desk, are considered bulky items and require a special pick up. Electronic waste (e-waste) is anything with a circuit board or battery, such as computers, telephones, and small printers. White goods (e.g. refrigerators, freezers) and electronic waste cannot be disposed of in your container. CR&R will collect and properly recycle these items. For pricing, please call customer service.

HAZARDOUS WASTE / BATTERIES

Hazardous wastes are products that are flammable, corrosive, reactive or toxic. This includes batteries of all types, as they are considered hazardous waste in California when they are discarded. Therefore, it is illegal to dispose of them in regular trash or recycling; so don't place them in CR&R containers. This includes batteries of all types and sizes Alkaline (AAA, AA, C, D, 9 volt), Lithium (button cell, power tool batteries, camera batteries, other electronics), Ni-Cad (power tools), and battery types both rechargeable and single use.

- Hazardous waste disposal company

Why is it important? When lithium batteries are improperly disposed of they can cause fires in recycling centers, landfills, and garbage and recycling trucks.

For additional information <http://www.calrecycle.ca.gov/reducewaste/batteries>

Examples of HHW include:

- Fluorescent light tubes
- Household batteries
- Latex or water based paint
- Non empty aerosol cans
- Thermostats
- High intensity discharge lamps

For more information on disposal options for your business contact The County of Orange at 714-834-6752 or <http://www.oilandfills.com/hazardous/bus>.

Holiday Schedule: Non-Collection Days

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day
- Christmas Day

If the holiday falls during the week, collection services for the remainder of that week may be postponed by one day.
