

CITY OF SAN JUAN CAPISTRANO ENVIRONMENTAL PROGRAMS ANALYST

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.*

DEFINITION

Under general supervision, to perform a wide variety of responsible and complex administrative and analytical duties, including written reports, studies, and various compliance efforts associated with the City's solid waste and recycling programs and other Public Works programs related to the environment; provide assistance to managers and executives as directed; and to provide information and assistance to the public regarding assigned programs and services.

DISTINGUISHING CHARACTERISTICS

This is a single position classification at the advanced journey level. The incumbent has a significant level of responsibility related to the program areas. The incumbent performs the most difficult and responsible types of duties assigned to the classification, similar in nature to the Senior Management Analyst classification. The incumbent is required to be fully trained in all procedures related to the assigned areas of responsibility.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from higher level management or executive staff.

May exercise direct supervision over technical or clerical staff.

ESSENTIAL FUNCTION STATEMENTS *Essential responsibilities and duties may include, but are not limited to, the following:*

Essential Functions:

1. Assumes direct responsibility for a variety of assigned solid waste and recycling programs; other Public Works programs related to the environment, oversees assigned administrative support functions including the budget.
2. Oversees and participates in special projects including complex research of new programs and services associated with the City's solid waste and recycling efforts and other Public Works efforts; and performs detailed analysis and conducts research on a wide range of solid waste and recycling programs and projects.
3. Ensures compliance with appropriate regulations and policies; recommends modifications as appropriate; serves as resource to various other City departments regarding applicable regulations. Serves as the City's liaison with regulatory agencies for assigned program areas when directed.
4. May assist in the preparation and negotiation of contracts for assigned program areas; monitors compliance with applicable contractual agreements; recommends modifications as appropriate.
