FLOOD ZONE AND FEMA INSURANCE INFORMATION

Fortunately, major flooding is not a common occurrence in Orange County. However, even damage generated by minor flooding can be inconvenient and costly. The first step of flood protection is to find out if your home or business needs flood insurance. Flood insurance is mandatory for all structures in "100-yard flood" zone financed with a federally backed loan. Another way to prevent flooding is to keep litter out of the creeks and waterways. The City prohibits the dumping of solid waste materials in the creeks, storm drains and gutters.

Since 1978, the City has been a participant in the National Flood Insurance Program (NFIP). As a service to the community, the City provides Flood Zone map determinations to inform property owners if their property or structures are located in a hazardous flood zone. You only need to provide the property address or specific location of the property. The City continues to actively participate in this program to assure that its benefits are available to residents and

business people who own property situated along the San Juan, Trabuco, Homo, and Oso Creeks. In addition to the map determinations, the Engineering Division also provides information on flood insurance required by the National Flood Insurance Program. Flood Insurance Rate Map data, depths of potential flooding, site visit and flood proofing techniques. Currently, property owners benefit from a 10% reduction on flood insurance as a feature of our NFIP participation.

For map determinations or any other questions you may have regarding FEMA and the National Flood Insurance Program, please contact the City's Engineering and Building Department at (949) 443-6352. If you are net-savvy, you can surf the FEMA website at www.fema.gov. For weather-related sites, visit www.noaa.gov; www.accuweather.com; www.weather.com; www.govlink.org.

INSTRUCTOR SPOTLIGHT

JODY MARCON

Jody Marcon, Dana Point Resident, wife, and mother of 2 grown boys, has always loved the creative field. She attended Art Center College Of Design and began as a commercial photographer back in the day when they exposed film. After raising her boys, she found her love of teaching with the Art Masters Program in our public elementary schools. Finally, after a season of loss, Jody found the Art for Healing Method. "Painting helped me so much, allowing me to see my grief in a new way. It was a wonderful new language for me." In the last 8 years she has facilitated classes all over Orange County for Art and Creativity for Healing and hopes to bring this healing process to our own community. Come paint with us and EXPRESS IT!

Jody has been teaching the Art for Healing Method for 8 years with groups of all kinds including Teen ACCESS Schools, Homeless Shelters, Senior Centers, Military Families, Wounded Warriors, Churches, Grief Classes, etc. She has seen such incredible value in creating a space of artistic self-exploration that she wanted to bring it to our community right here in San Juan Capistrano. To view the class schedule refer to page #12. For more information please call (949)493-5911.
