Introduction

Purpose of the Parks & Recreation Element

Some of San Juan Capistrano's most valuable assets include its parks, recreational facilities, hiking, biking and equestrian trails and natural open space. Parks and facilities for recreational activities contribute significantly to the quality of life of the City's residents. The Parks & Recreation Element focuses on the provision and maintenance of parks, recreational facilities and hiking, biking, and equestrian trails within the City.

The Parks & Recreation Element is not a mandatory element under state planning law. The City elected to include the Parks & Recreation Element due to the importance of parks and recreational facilities in the community, and the close relationship between the provision of parks and the enhancement of open space areas. The Parks & Recreation Element includes goals, policies and plans to ensure the provision and maintenance of adequate parks and recreational facilities to meet the needs of the existing and future population of the City. The Parks & Recreation Plan identifies existing and planned parks and recreational facilities throughout the City.

Scope and Content of the Parks & Recreation Element

The Parks & Recreation Element addresses the level of existing facilities, the provision of new parkland, recreational facilities, and hiking, biking and equestrian trails, as well as the economic feasibility of providing and maintaining these facilities. The Parks & Recreation Element expresses community goals to provide adequate parks and recreational facilities. The element contains specific goals and standards to guide the provision and maintenance of parks and recreational facilities for the current and future residents of San Juan Capistrano.

The Parks & Recreation Element consists of three sections: 1) Introduction; 2) Issues, Goals and Policies; and 3) the Parks & Recreation Plan. In the Issues, Goals and Policies section, community parks and recreation needs are identified, and corresponding goals and policies are established. The goals, which are overall statements of the City's desires, comprise broad statements of purpose and direction. The policies serve as guides for planning recreational facilities to meet the needs of the existing and future population of San Juan Capistrano. The Plan describes how the goals and policies will be achieved and implemented. Specific implementation programs are included in the General Plan Implementation Program.

Related Plans and Programs

A number of existing plans and programs directly relate to the Park & Recreation Element. These plans and programs have been enacted through federal, state, and local actions and are administered by agencies or special districts.

The Americans with Disabilities Act (ADA)

The Americans with Disabilities Act (ADA) of 1991 was adopted to make public areas, including parks and play areas, accessible to all persons. The ADA requires that all playground equipment, trails and recreational facilities be usable by adults and children with disabilities. Designing recreational facilities and retrofitting existing facilities is addressed in the Parks & Recreation Element.

California Environmental Quality Act and Guidelines (CEQA)

The California Environmental Quality Act (CEQA) was adopted by the state legislature in response to a public mandate for thorough environmental analysis of projects impacting the environment. The provisions of the law and environmental review procedures are described in the CEQA Statutes and Guidelines. CEQA will continue to be instrumental in ensuring that the environmental impacts associated with local development projects are appropriately assessed and mitigated.

The Quimby Act

The Quimby Act (State of California Planning Law Section 66477) allows the legislative body of a city or county to require by ordinance the dedication of land, the payment of in-lieu fees, or a combination of both for parks and recreational purposes as a condition to the approval for a final tract or parcel map. In cases where such dedication or fees are not obtained through a map, they may be imposed when building permits are issued. The following conditions must be met to comply with the Quimby Act:

- The city or county ordinance must include definite standards for determining the proportion of a subdivision to be dedicated and the amount of any fee to be paid in-lieu thereof.
- The legislative body has adopted a General Plan containing a recreation element, and any proposed park or recreational facility must be consistent with the principles and standards established in the element.

County of Orange Master Plan of Local Parks

The County of Orange Master Plan of Local Parks provides goals, objectives, policies and implementation programs for a comprehensive Countywide Park Plan. The Master Plan provides a regional park planning context for the City of San Juan Capistrano.

County of Orange Master Plan of Regional Riding and Hiking Trails

The County of Orange Master Plan of Regional Riding and Hiking Trails includes an inventory of existing and proposed trails, and standards and criteria for the provision of new trails. This plan also provides policies and programs to implement the future development and operation of the Countywide trails system.

County of Orange Recreation Element

The County of Orange General Plan Recreation Element provides an inventory of existing and proposed parks and open space and includes the Local Parks and Trails Master Plans. These Master Plans provide a regional park planning context for the City of San Juan Capistrano.

City of San Juan Capistrano Open Space Master Plan

The City adopted an Open Space Master Plan in 1992. The purpose of the Open Space Master Plan is to preserve, protect and enhance open space uses, agricultural preserves, recreational facilities and trails within the City. The San Juan Capistrano Open Space Master Plan provides an inventory of existing and planned open space uses, as well as goals, policies, plans and programs to ensure the continued preservation, development and management of open space resources within the City. The goals, policies and plan contained in the Open Space & Conservation Element of this General Plan are the required legal documentation to be used when planning for open space and conservation uses within the City.

Relationship to Other General Plan Elements

The Parks & Recreation Element must be consistent with the other General Plan elements and all elements of the General Plan are interrelated to a degree. Certain goals and policies of the Parks & Recreation Element may also address issues that are the primary subjects of other elements. The integration of overlapping issues throughout the General Plan elements provides a strong basis for the implementation of plans and

programs, and achievement of community goals. The Parks & Recreation Element most closely relates to the Land Use Element and the Conservation & Open Space Element.

The Land Use Element provides a planned land use pattern with the following general land use designation categories: Residential, Commercial, Industrial, Public/Institutional, Open Space & Conservation and Special. These community designations are applied to public and private land that is intended for open space and parks and recreational uses.

The Parks & Recreation and the Conservation & Open Space Elements are also closely related. The Conservation & Open Space Element identifies existing and planned open space. These areas are in some cases suitable for parks and recreational activities. The Parks & Recreation Element proposes parks, trails and recreational uses in some of these areas when these uses are compatible with surrounding land uses and are appropriate to meet public parks and recreational needs.

Parks & Recreational Facilities

Issues, Goals, and Policies

San Juan Capistrano has a growing and diverse population. To meet the recreational needs of this population, the City needs to assure that a variety of park and recreational facilities exist. These facilities provide open space and add to the quality of life within the community.

Parks & Recreation Goal 1: Provide, develop, and maintain ample park and recreational facilities that provide a diversity of recreational activities.

Policy 1.1: Coordinate with local groups to identify and meet the community's recreational needs.

Policy 1.2: Work with the County and other agencies' planning for the development of regional parks and regional linkages which will be accessible to City residents.

Policy 1.3: Identify and implement funding programs to maintain and expand park and recreational facilities.

Policy 1.4: Develop and maintain a balanced system of public and private recreational lands, facilities, and programs to meet the needs of the community.

Policy 1.5: Operate and maintain public park and recreational facilities in a manner that ensures safe and convenient access for all members of the community.

Policy 1.6: Increase the accessibility of existing open space areas for recreational activities.

Policy 1.7: Provide parkland improvements and facilities that are durable and economical to maintain.

Policy 1.8: Publicize park and recreation opportunities in San Juan Capistrano to the community.

Policy 1.9: Utilize existing public utility easements for recreation and open space.

Trails Network

San Juan Capistrano already has an extensive trail system for bicycles, hikers, and horses. As well as reducing automobile traffic through the provision of alternative modes of transportation, the trail systems also provide the community with active and interesting recreational opportunities.

Parks & Recreation Goal 2: Develop and expand the existing bicycle, hiking, and equestrian trail system and facilities.

Policy 2.1: Develop and expand the existing trails network that supports bicycles, pedestrians, and horses, and coordinate linkages with those networks of adjacent jurisdictions.

Policy 2.2: Preserve the equestrian lifestyle by designating land for the preservation or provision of new equestrian facilities.

Policy 2.3: Encourage the affordable provision of equestrian facilities within the City.

Neighboring Cities

San Juan Capistrano offers a range of Parks & Recreational opportunities, while some of the surrounding cities do not offer the same level of service. As a result, the City has experienced an increase in the number of non-residents using City facilities. Since these non-residents do not help to support San Juan Capistrano's Parks & Recreational facilities through tax revenues, the City is in effect subsidizing the surrounding cities' recreational opportunities.

Parks & Recreation Goal 3: Reduce the impact of adjacent cities' residents on San Juan Capistrano's recreational facilities.

Policy 3.1: Develop and implement programs which distribute the cost of building and maintaining recreational facilities to the actual users with credit to City residents for past and current payment for providing facilities through Measure "D" bonds.

Related Goals and Policies

The goals and policies described in the Parks & Recreation Element are related to and support subjects included within other General Plan elements. In turn, many goals and policies from the other elements directly or indirectly support the goals and policies of the Parks & Recreation Element. These supporting goals and policies are identified in Table PR-1.

**Table PR-1
Related Goals and Policies by Element**

General Plan Elements	Parks & Recreation Issue Area		
	Parks & Recreational Facilities	Trails Network	Neighboring Cities
Land Use	1.3, 2.1, 7.2	1.3, 2.1, 7.2	
Housing			
Circulation	3.1	3.1, 4.1	3.1

Public Services & Utilities	4.1		
Floodplain Management	3.1	3.2	

Parks & Recreation Plan

A distinct combination of physical setting, agricultural land, Mission-related heritage and natural open space provide identity and unique recreational opportunities for San Juan Capistrano. The Parks & Recreation Element establishes an approach to provide a variety of Parks & Recreational opportunities while preserving open space and adding to the quality of life within the community. The Plan addresses the Parks & Recreation issues identified in the previous section of this Element. The related goals and policies serve as the basis of the Plan and are supported by approaches to provide, enhance and maintain Parks & Recreational facilities. The Parks & Recreation Implementation program is an extension of this Plan and contains specific programs to achieve recreational goals.

Parks & Recreational Facilities

The San Juan Capistrano park and recreation system exists within the context of the City's existing development pattern. The existing and planned parks & recreational system consists of neighborhood parks, community parks, the planned Prima Deshecha County Regional Park, joint use parks, private Parks & Recreational facilities, community services and facilities and an extensive trail system. City parks and recreational facilities are depicted on Figure PR-1. The existing Parks & Recreational system can be characterized as neighborhood-serving with Parks & Recreational facilities generally well distributed throughout the City. Most of the neighborhoods in the City are within three-quarters of a mile from an existing park. Those developments that fall outside of the three-quarter radius from a public park often have private Parks & Recreational facilities. Table PR-2 provides a complete list and description of existing Parks & Recreational facilities within the City. The approximate location, acreage and features of planned parks are summarized in Table PR-3.

To ensure sufficient Parks & Recreational opportunities, the City has established a parkland standard of five acres per 1,000 residents. The standard is useful in determining existing parkland deficiencies and predicting the demand from future population growth. Table PR-4 summarizes the parkland requirements for the existing population and the anticipated population from development of planned land uses (as established in the Land Use Element). Based on the parkland standard, there is an existing surplus of approximately five acres in the City.

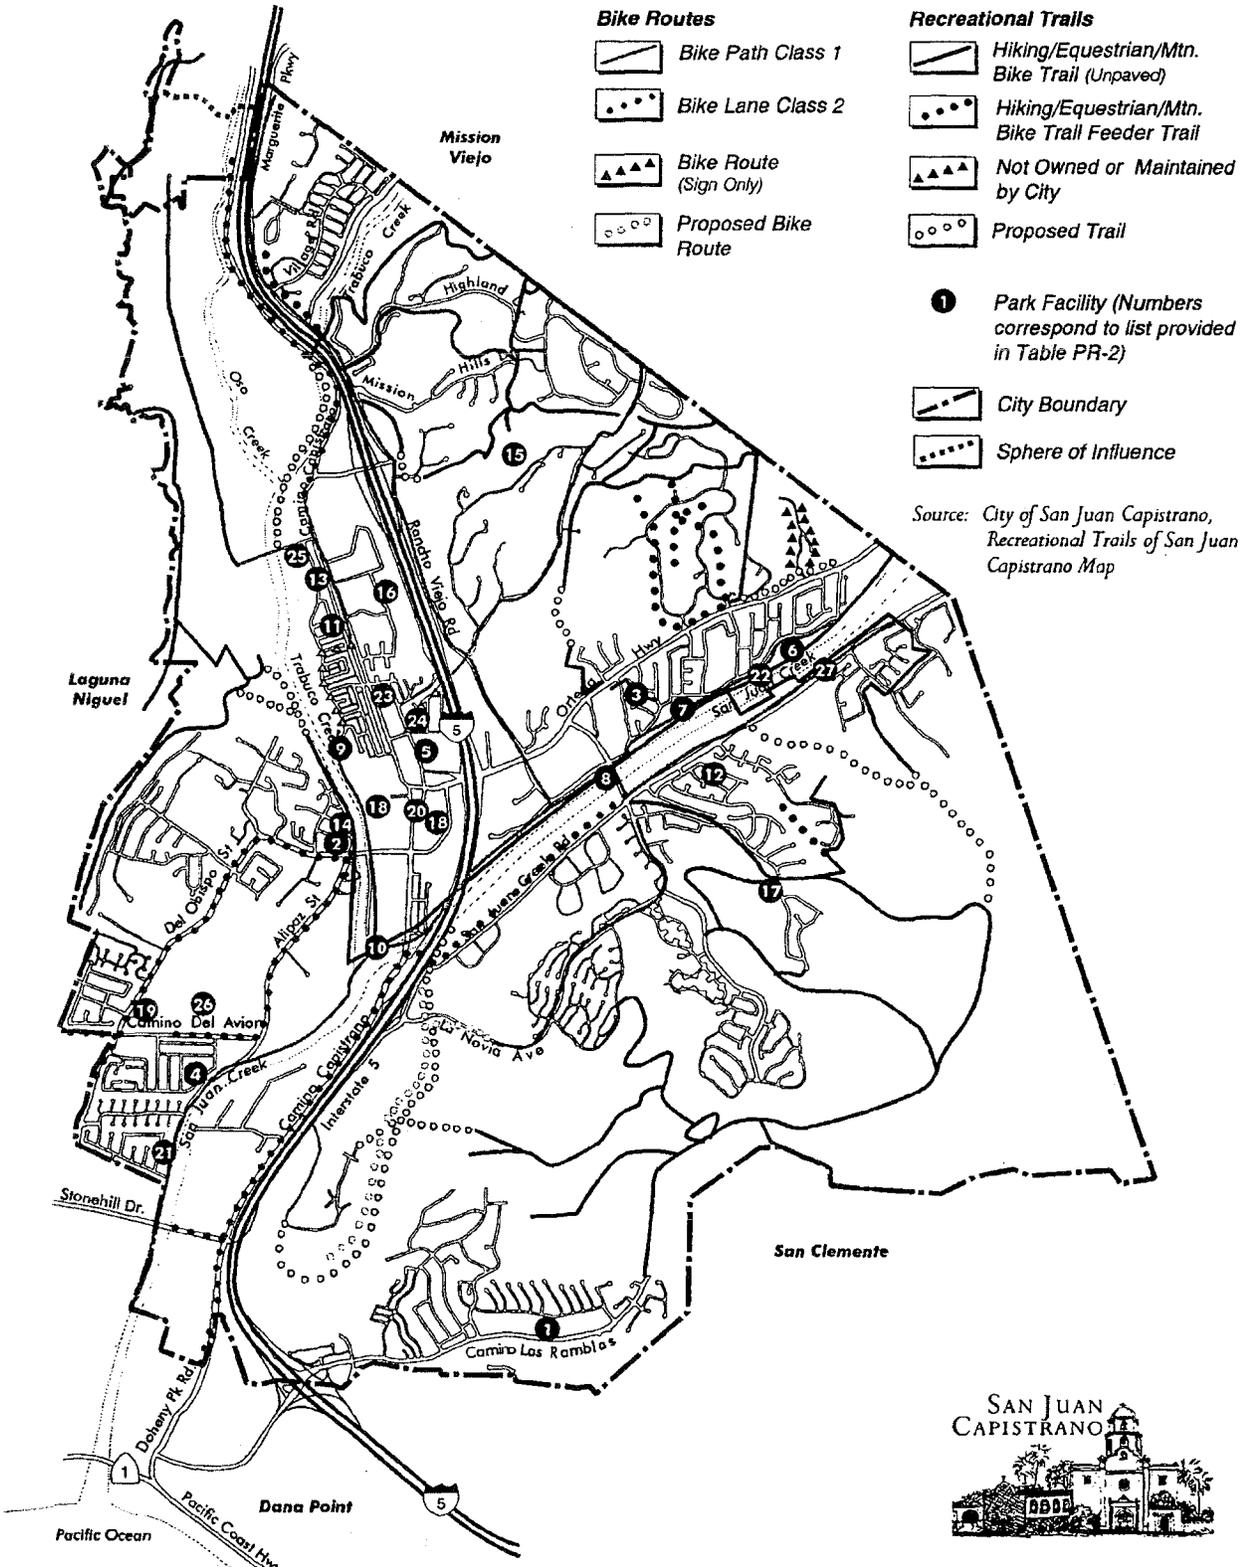

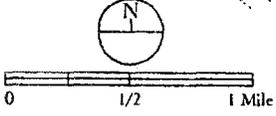

Figure PR-1
Parks and Recreational Facilities

**Table PR-2
Existing Parks and Recreational Facilities Inventory**

Name	Size	Location	Amenities
1. Acu Canyon Park	4.7 acres	Camino Las Ramblas and Avenida Pescador	Automatic irrigation, grassy area, multi-purpose fields.
2. Arce Park	0.2 acres	Northwest corner of Alipaz and Del Obispo	Grassy area with automatic irrigation and signage.
3. Arroyo Park	3.6 acres	Bordered by Via Parra on the east and Sundance on the west	Equestrian trail and grassy area with automatic irrigation.
4. Bonita Park	0.6 acres	West side of Via Del Rey, across from Via Lorado	Children's play area and grassy area with automatic irrigation.
5. Buchheim Field	17.7 acres	North of Spring Street, east of El Camino Real and west of Interstate 5	Food concessions, unlighted Little League and softball fields, unlighted soccer fields and parking.
6. Cook Park (Cordova)	9.0 acres	East side of Calle Arroyo between Via Entradero and Via Solana	Automatic irrigation, BBQ and fire rings, bike paths, equestrian/hiking trails, multi-purpose fields, grassy area, parking, restrooms, softball and soccer fields and scenic views.
7. Cook Park (Del Campo)	1.5 acres	Calle Arroyo and Del Campo	Bike paths, children's play area, equestrian/hiking trails, grassy area, and scenic views.
8. Cook Park (La Novia)	6.5 acres	East side of Calle Arroyo between La Novia and Paseo Tirador	Automatic irrigation, BBQs and fire rings, basketball courts, bike paths, children's play area, drinking fountains, equestrian/hiking trails, grassy area, multi-purpose fields, parking, picnic areas, restrooms and volleyball courts.
9. De La Vista Park	.3 acre	East of Trabuco Creek and west of Avenida Del La Vista, near the western terminus of Mission Street	Picnic areas and tables.
• Descanso Park	1.0 acre	At the terminus of Paseo Adelanto	Automatic irrigation, BBQs and fire rings, bike paths, children's play area, City Hall, drinking fountains, grassy area, Head Start, Hot Springs Dance Hall, horse corral and horseshoe pits, parking, picnic area, restrooms, and scenic views.

**Table PR-2
Existing Parks and Recreational Facilities Inventory**

Name	Size	Location	Amenities
• El Camino Real Park	4.5 acres	Camino Capistrano from La Zanja to Calle Chueca	Automatic irrigation, bike paths, drinking fountains, grassy area, picnic area, restrooms.
• Four Oaks Park	2.54 acres	East side of Via Madonna between Calle Santa Ynez and Via Del Cerro	Automatic irrigation, bike paths, grassy area, picnic area and volley ball courts.
• Fran Joswick Equestrian Center (Oso Park)	5.3 acres	Between Trabuco Creek and Camino Capistrano, south of Oso Road	Equestrian Facility
• Good Neighbors Park	0.2 acre	West of Trabuco Creek between Calle Lucana and Calle Delphina	Biking, equestrian/hiking trail, grassy area, picnic area and restrooms.
• Helicopter Hill	—	East of the terminus of Paseo Cardero	Scenic Views
• Junipero Serra Park	3.75 acres	Terminus of San Felipe Circle	Automatic irrigation, bike paths, children's play area, drinking fountains, and grassy area.
• La Ronda Park	.5 acre	On Camino La Ronda between Via Montura and Paseo Corrales	Benches and children's play area.
• Los Rios Historic Park	8.0 acres	East of Trabuco Creek between Ramos Street and Historic River Street	Bike paths, buildings of distinction, historical sites, and parking.
• Marco Forster Junior High	10.0 acres	Northeast corner of Del Obispo and Camino Del Avion	Lighted and unlighted baseball fields and basketball courts; bike paths; children's play area; grassy area; gymnastics; multi-purpose fields; parking; lighted and unlighted racquetball courts; running track; lighted and unlighted softball fields, soccer fields and tennis courts; and volleyball courts.
• Mini Park	0.3 acre	East side of Camino Capistrano at Yorba Street	Benches, gravel paths and container garden.
• Mission Bell Park	2.8 acres	West side of Alipaz Street, north of Calle Jardin	Bike paths, children's play area, grassy area, ocean views and scenic views.
• Mission Trails Equestrian Center	8.0 acres	Between Calle Arroyo and San Juan Creek	Equestrian Facility

**Table PR-2
Existing Parks and Recreational Facilities Inventory**

Name	Size	Location	Amenities
• Old Capistrano High School Site	4.3 acres	Camino Capistrano, west of El Camino Real between La Zanja and Acjachema	Unlighted basketball courts, unlighted soccer fields and unlighted tennis courts.
• Old Fire Station Community Center	1.3 acres	El Horno Street and La Matanza	City Community Services Department, recreation classes, senior center and restrooms.
• Rio Oso Park	5.3 acres	South of Oso Road between Trabuco Creek and Camino Capistrano	Benches and biking trail
• San Juan Capistrano Community Center and Sports Park	56.0 acres	Camino Del Avion	Bike path, basketball courts, gymnasium, multi-purpose fields, senior and community center, City community services, recreation classes, Kinoshita Farm Preserve.
• San Juan Creek Neighborhood Park	4.7 acres	Northwest corner of San Juan Creek and Camino Lacouague	Children's play area and benches.
Total Acres	162.6		

**Table PR-3
Planned Parks and Recreational Facilities**

Site	Net New Acreage	Location	Possible Features
Las Ramblas Park	5.5 acres	North side of Camino Las Ramblas, between Via California and Via De Agua	Soccer field, trees, turf, baseball fields and parking
Northwest Open Space Site	77.0 acres	Between Camino Capistrano and the railroad, north of Junipero Serra Road	Picnic areas, historical area, nature center, tot lots, hiking and biking trails
Total	82.5		

**Table PR-4
Existing and Future Park Acreage Needs**

	Population¹	Park Acreage Required²	Available Acreage from Existing and Planned Parkland³	Surplus/Short-fall of Acreage
Existing City	31,337	157	163	6
Future City	36,440	182	245	63

- Projected population for purposes of establishing parkland acreage needs.
- Five acres per 1,000 persons.
- County and Regional parks are not used to meet this standard.

The facilities comprising the Parks & Recreation Plan are described in the following sections, and standards and criteria for developing new park sites are established.

Parks System

The City's parks system consists of existing public and private neighborhood parks, community parks, the planned Prima Deshecha County Regional Park and joint use parks. San Juan Capistrano currently has 27 developed public parks which range in size from the 0.2 acre Arce Park to the 56 acre San Juan Capistrano Community Center and Sports Park. Several public parks are small and function as passive parks. Active recreational parkland is provided in the City at nine parks.

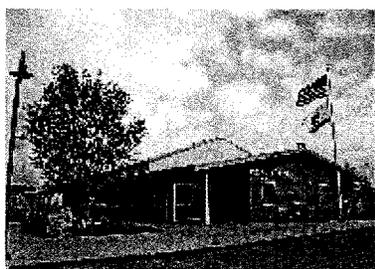

Neighborhood Parks

The City contains a significant number of well-distributed public and private neighborhood parks that are primarily passive in nature. The following criteria are considered when developing neighborhood parks:

- A parcel size of approximately five acres, with approximately half of the acreage in relatively flat terrain to minimize grading for play areas and parking. The sites should have both adequate street access and preferably connections to the trail system;
- The parks, although passive in nature, should include level areas for active sports play, practice fields or multi-purpose fields as appropriate. The parks should also include playgrounds, tot lots and picnic areas; Each park should be designed with rest room facilities, drinking fountains, signage, and security lighting designed to be compatible with surrounding residences;
- Parking provisions should be adequate to serve the activities and not infringe upon the surrounding neighborhood's parking demands; and
- Each park should be designed with handicap accessibility.

The City will continue to implement its policy of providing well distributed small public neighborhood parks to serve the local communities within San Juan Capistrano. San Juan Capistrano will also maintain its current policy regarding the provision, operation and maintenance of private parks by homeowners associations as a way of augmenting the distribution of public neighborhood parks within the City. The City will also continue to implement the Quimby Act which requires parkland dedication of five acres per 1,000 residents or an in-lieu fee payment as a required condition for approval of a residential subdivision.

Community Parks

The City currently has two major community parks, the C. Russell Cook Park and the San Juan Capistrano Community Center and Sports Park totaling approximately 73 acres. One additional community park is planned in the northwest portion of the City on a site located north of Junipero Serra Road between the railroad and Camino Capistrano. This northwest open space site is depicted on Figure PR-1. Community parks are intended to serve as the major active recreational sites within the City. The following criteria are considered when developing community parks:

- Large, multi-purpose open grass fields, ten acres in size, to be used for community events, open space, multi-purpose play areas or informal recreation;
- Active recreational facilities, including lighted and unlighted softball and baseball diamonds, soccer/football fields, basketball courts, volleyball courts, and tennis courts;
- Concessions and snack bar facilities;
- Permanent restrooms and maintenance storage facilities;
- Picnic sites and barbecues, including group picnic areas;
- Community building and outdoor stage or amphitheater;
- Adequate off-street parking with handicap accessibility;
- Nature center, with a nature trail, possible blind persons trail;

- Trail staging area for biking, hiking and equestrian connections to trail system;
- Security lighting designed not to intrude on surrounding land uses;
- Possible day camp for group use, with the ability to have overnight camping or special events; and
- Passive areas with wooded glens and fields for strolling and picnicking.

The City will continue to implement its policies regarding the expansion, provision, maintenance and funding of parks in order to expand the recreational opportunities at its community parks.

Regional Park

The County of Orange and the City of San Juan Capistrano identify the development of the Prima Deshecha County Regional Park on the site of the existing Prima Deshecha landfill located in the southeastern hills of the City. Although full closure of the landfill is not expected until 2064, portions will be closed prior to 2064. The City will continue to work with the County in establishing earlier phased development as portions of the landfill are closed. Activities that may be incorporated at this site include open field play and active recreation provisions, a golf course, camping facilities, picnic and barbecue facilities. County and Regional Parks are not used to meet the parkland requirement standard.

Joint Use Parks

There are currently two active recreational park sites within the City which are owned by the Capistrano Unified School District and hold joint use agreements with the City - Buchheim Field and Marco Forster Junior High School. As indicated on Table PR-2, recreational opportunities at Buchheim Field include unlighted Little League and softball fields and unlighted soccer fields. The Marco Forster Junior High School site totals ten acres, including two lighted soccer/football fields, one unlighted soccer/football field and two lighted tennis courts. Additionally, the City also has a joint use agreement with Capistrano Valley High School, which is outside of the City limits, for the use of their gymnasium and pool facilities. The City will continue its policy of entering into joint use agreements with both private and public schools located in and adjacent to the City in order to expand the recreational opportunities available to City residents.

Private Recreational Facilities

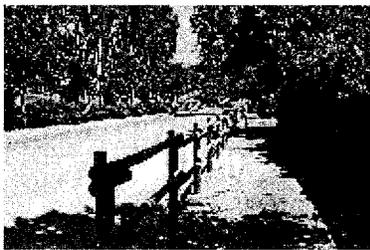

There are three types of private recreation within the City - golf courses, equestrian centers and athletic clubs. The majority of these facilities, though privately owned, are open to the public subject to a user fee. These provide for a variety of local recreational needs including golf, horseback riding, swimming, racket sports, court sports and aerobics. In addition, many of the homeowners associations provide neighborhood recreational facilities within their units, consisting of pools, courts and parkland. Although these facilities are not available to all City residents, they provide an important level of recreation provision. The City will continue to implement its policies and programs which encourage the provision and maintenance of private recreational facilities and affordable equestrian centers.

Community Services Facilities

The Community Services Department currently uses four primary facilities at which it offers a variety of programs: a) the San Juan Capistrano Community Center and Sports Park; b) the Old Fire Station which contains the Nydegger Building and the Lacouague Building; c) the La Sala Community Room annex of the County library; and d) Hot Springs Dance Hall located immediately north of Descanso Park. A variety of senior and youth-oriented activities, classes and special events are held in these facilities. The Community Services Department also offers classes and programs at privately owned facilities,

schools, parks and concessions throughout the City. Through the Community Services Department, the City will continue to implement and fund programs to expand community services facilities and programs. The City will also continue to implement a program to publicize community services and recreational activities.

Trails Network

The City has in place an extensive hiking, biking and equestrian trail network. The following trails and bike routes comprise the trail system:

- **General Plan Trails:** These are the main trails, usually 20 feet wide, and in most cases are maintained by the City.
- **Feeder Trails:** These are dead end trails, 10 feet wide, serving equestrian zoned neighborhoods. These trails are usually maintained by the adjacent homeowners association.
- **Bicycle Routes:** These are paved and consist of three types.
 - **Class 1:** A route separated from a roadway such as the route along the east side of Rancho Viejo Road, or along the levees of San Juan and Trabuco Creeks. These routes are also used by pedestrians and, in some areas, equestrians.
 - **Class 2:** A separate lane within a roadway such as along Camino Capistrano, north of Junipero Serra Road.
 - **Class 3:** A route within a roadway designated by signage only.

This trails network is depicted on Figure PR-1. The system is held together by trails along San Juan, Trabuco and Oso Creeks. Complementing these is an irregular web of trails moving through the community and into the ridgelines surrounding the City. The City will continue to work with the County and surrounding jurisdictions to provide links to the regional trail network. The City will also continue to provide and maintain the various trails in order to provide trail loops and increased access to open space.

A unique component of the recreational trail system is the City's Historic Walking Tour. This self guided tour links the City's main historic sites through a programmatic historic pedestrian trail through San Juan Capistrano's village core. The City will continue to maintain and publicize this historic pedestrian trail as a means to increase recreational opportunities within the City.

Equestrian Lifestyle

San Juan Capistrano's rural environment has been and continues to be enhanced by its equestrian facilities. Such facilities offer a unique form of recreation for both children and adults. This unique relationship between a horse and a person also has become a recognized form of physical therapy for those with disabilities. The General Plan makes provisions for the continuation and expansion of opportunities for equestrian stables and support facilities in order to maintain and protect this valuable asset to the quality of life of the community.

Neighboring Cities

Due to San Juan Capistrano's range of parks, recreational and community service facilities and activities, the City experiences a large number of non-residents using City facilities. Since these non-residents do not help to support the provision and maintenance of these facilities through tax revenues, the City is in effect subsidizing the surrounding jurisdictions' recreational opportunities. The City will develop and implement a program which distributes the costs of building and maintaining recreational facilities to the actual users with credit to City residents for past and current payment for providing facilities through Measure D bonds. The City will also coordinate with adjacent cities and agencies to study the feasibility of more equitably distributing the cost of building and maintaining recreational facilities among actual users.
